Another football season came to a close in Piedmont with many surprises occurring throughout the Varsity season. "This is the first team I've coached where every player plays in every game. There isn't a single guy out there who is not contributing," said coach Kurt Bryan. Even though placing fourth in the league with a 5-2 record this years passing game totaled 1,665 yards surpassing the totals of the teams that finished one, two, three in standings. This was due too qaurterback Matt Kliszewski's unique ability to connect with his receivers Mike Canty, Zach Chan ,Zachary Free, Daniel Jin, Jeremy Richmon, and Kosei Yamazaki. This years running game was also highly successful. With the help of tight end Blake Nicholson and running backs Joseph Gardere, Mark Palamountain, Alan Schwartz and Chris Traverso they together totaled 1,545 yards. This year's Scots were the only team to average 320 yards per game. Overall this years Varsity showed determination and stength.

THE FIGHTING SCOTS

Piedmont Football produced two extraordinary teams this year. They were the Junior Varsity and Frosh teams. This success, at least for the Junior Varsity, was not a surprise to many people because the team had so much talent. According to Ryan Wulff, a sophomore on the team, he said, "I have never seen a team so unified. We really worked together. Everyone knew that every single member was a part of the team, and we weren't carried by one person, everyone did their share."

I interviewed many team members and they all said that there was a great effort that was put forth and a team spirit that could not be broken. Just as their record of 9-0-1 could not be broken. That is quite an accomplishment, for any team, let alone one from Piedmont. They comfortably took first place in the ESAL. The coaches and everyone who participated with the teams should be proud.

As for the freshmen they should be proud, too. They didn't do as well as the Junior Varsity, but the team spirit is still there. The freshmen still have three more years to bond and work together, as a team, to improve their 2-6 record. Practice makes perfect, just as the Junior Varsity has shown us. Good Job to both teams.
